

## ABOUT US

TET Global Logistics, which launched into the logistics sector with bulk chemical transportation activities, continues its logistics operations between all points in Turkey and Europe with its large fleet consisting of more than 300 self-owned vehicles. TET Global Logistics, which also provides intermodal transportation services, has been the Türkiye agent of Bulkhaul Limited since 2012, offering logistic services between all points in the world in container transportation. Headquartered in Istanbul and main garage is in Dilovası/Gebze which is located in the hearth of industry and several ports in Marmara region.

In 2004, our sister company Dilmak Tanker expanded its services by including chemical tanker cleaning and treatment to its activities. Dilmak Chemical Tanker Cleaning and Treatment Plant delivers European Standard services with its experienced staff and automated cleaning systems. In addition to that Dilmak is the first SQAS assessed cleaning station in Turkey since 2006. Dilmak provides periodical iso tank test preparation, leakage testing, repair, steam and hot water heating services in Türkiye.

We transport liquid chemicals within the framework of the European Agreement regarding the International Carriage of Dangerous Goods by Road (ADR) in line with the SQAS sustainable safety and quality standards set by the European Chemical Industry Council. TET Global is among the few logistics companies that have the Green Logistics Certificate with its sustainability activities.
